Web Announcement 1453

Notification Regarding Claims with Third Party Liability that Denied

Claims with Third Party Liability (TPL) that denied with edit codes 0313 (Bill TPL) and/or 0367 (Bill Medicare) when the recipient's TPL coverage was ended retroactively will be automatically reprocessed. This will be in effect from October 2, 2017, forward. Providers do not need to resubmit or appeal the denied claims. When the claims are reprocessed, they will continue through the claims processing system and will be subject to subsequent validations. Claims must not be denied for any other edit codes in order for providers to receive payment.
